#REF!	2	24	<p>“The DOC shall use internal resources whenever possible.” I would suggest that verbiage be added similar to: “.....when fiscally responsible, within the Departments capabilities, and time frames needed can be met.....” (there are many times that this cannot be done in house, for a better price, the quality of work needed and during the time frame needed)</p>	<p>Thank you for your suggestion, however upon discussion we find the added language unnecessary.</p>
