

Memo

To: All Inmates Housed OOS
From: VTDOC Central Office
Date: January 12, 2017
Re: OOS Contract 1 of 1

As you are aware, on December 15, 2016, the GEO Group corporation opted to cancel the contract between the Vermont Department of Corrections and the North Lake Correctional Facility in Baldwin, Michigan.

As such, the Vermont Department of Corrections is exploring any and all options for the most suitable and secure location to house those currently housed out of state between now and June.

The Out of State Unit, who handled the transition from CCA to GEO Group, are handling this transition.

Any questions you may have should be submitted to your unit representatives who will bring them to their regular meetings with NLCF Management.

The questions will be compiled, sent to Vermont and answered by the OOS Unit management through memos such as this one.

Individual letters with questions about the transition sent to the VTDOC will not be answered – instead, our resources will be focused on the transition and current caseload requirements.

Any new information about the move that can be released to you will be shared in similar memos, posted in the living units and online for your friends and family.

Thank you in advance for your cooperation.
